

## REPLACEMENT PAGE 5; 2nd FULL PARAGRAPH

The carriage 7 is comprised of the bottom part 3 having rollers 4 and the top part 5 placed thereon. In this connection, the ramp 6 is placed from above by means of a hook structure 6a with projecting extensions 6b onto the axle 8 of the roller pair 4. Fig. 3a also shows that on the carriage 7, i.e., on the top part 5, a flat belt 9 is fastened.
